DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I in the reply filed on 01/09/06 is acknowledged. The traversal is on the ground(s) that searching and examining the subject matter of Groups I and II does not place a serious burden on the Examiner. This is not found persuasive because the subject matter of Group II requires searching in areas that are beyond those required for Group I. The requirement is still deemed proper and is therefore made FINAL.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John F. Buckert on 03/14/06. The application has been amended as follows:

In the claims:

Claims 16-105. (cancelled).

REASONS FOR ALLOWANCE

3. Claims 1-15 and 106-121 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates to light collimating and diffusing films.

Art Unit: 2873

Regarding claims 1, 106 and 115, the prior art fails to disclose that wherein between 7 to 20 percent of slope angles on the first textured surface proximate a first axis have a value between zero and five degrees. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

4. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Information/Remarks

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Suga et al. (US Patent 6,445,504), Kashima (US Patent 6,417,831), and Hayashi et al. (US Patent 6,166,793) discloses similar light diffusing films.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Dinh whose telephone number is 571-272-2327. The examiner can normally be reached on M-F (9:30 AM - 6:00 PM).
